

The background of the cover features a perspective view of a server aisle with blue lighting and a network overlay of glowing nodes and lines. The FYBR logo is prominently displayed in the upper center, with 'FYBR' in a large, bold, blue font and 'DC SOLUTIONS' in a smaller, spaced-out font below it. A large '2025' is positioned in the lower left, partially overlapping the server aisle image.

FYBR DC Solutions Sdn. Bhd. – Your Trusted Partner in Data Center Excellence.

About Us

A Brief Story About The Company

FYBR DC Solutions Sdn. Bhd. was founded by two passionate friends with over a decade of hands-on experience in the data center industry. Recognizing the growing demand for reliable, efficient, and innovative data center solutions, they combined their expertise to establish FYBR DC Solutions. Today, the company stands as a trusted partner for businesses seeking to optimize their data center operations, offering a comprehensive suite of services designed to meet the evolving needs of modern enterprises.

Vision

To be the preferred partner for data center services, setting benchmarks for quality, reliability, and customer satisfaction.

Mission

01

Empowerment: Enabling businesses to grow, innovate, and succeed with reliable data center solutions.

02

Scalability: Offering flexible and adaptive solutions that evolve as businesses expand.

03

Efficiency: Optimizing performance, reducing costs, and ensuring sustainable operations.

04

Reliability: Delivering consistent, dependable service with minimal downtime for business continuity.

Identified Challenges

Growing Demand for Reliable and Efficient Data Center Solutions

With the increasing reliance on digital infrastructure and data storage, businesses face challenges in maintaining reliable, efficient, and scalable data center operations.

Skilled Labor Shortages

Remote Hands services require highly trained professionals who can troubleshoot, maintain, and repair data center equipment efficiently. Finding and retaining skilled personnel can be difficult, especially in specialized areas.

Network Downtime and Disruptions

Any issue with infrastructure cabling can lead to network downtimes or performance disruptions. Ensuring minimal service interruption and swift recovery in case of cable failures or misconfigurations is a critical challenge.

Cable Management Complexity

Managing extensive cabling systems efficiently while ensuring organization and future scalability is challenging, especially in high-density environments with ever-growing infrastructure needs.

Strategies

Addressing the Demand

FYBR DC Solutions was founded to address this gap by providing comprehensive, high-quality data center services tailored to businesses' evolving needs.

Combined experience

The founders' combined experience allowed them to provide end-to-end solutions that streamline data center operations for businesses, from hardware installation to remote management and troubleshooting.

Remote Hands Services

The introduction of Remote Hands Services, available 24/7, ensures businesses receive continuous support, minimizing downtime and enabling efficient problem resolution without needing an on-site presence.

Expertise

The company leverages its founders' technical expertise and experience in the industry to offer tailored, high-quality services that ensure businesses can focus on growth while relying on expert support for their data center needs.

Core Services

FYBR DC Solutions Commitment to Services

FYBR DC Solutions is dedicated to delivering reliable, scalable, and secure data center services tailored to meet the unique needs of each customer. By prioritizing innovation, performance, and exceptional customer support, FYBR ensures seamless operations and robust infrastructure, empowering businesses to thrive in a data-driven world.

Remote Hands Services

- Server and network device reboots
- Hardware installation, replacement, and troubleshooting
- Emergency support and incident resolution
- Power cycling of equipment
- Cable management, patching, and labeling
- Monitoring and reporting of environmental conditions
- Inventory management and asset tracking
- Firmware updates and basic configuration changes

Infrastructure Cabling

Infrastructure Cabling Solutions

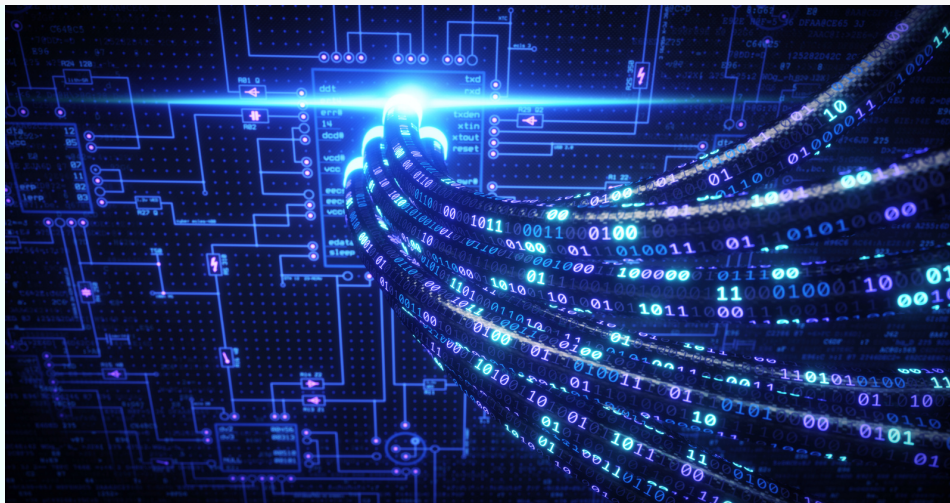

We specialize in end-to-end infrastructure cabling solutions that form the backbone of reliable data center operations.

- Design and installation of structured cabling systems (copper and fiber optics)
- Cable testing, certification, and labeling
- Rack and stack services
- Pathway and containment solutions, including trunking and cable basket installations
- Upgrades and migrations
- Cable tray and ladder rack installations
- Fiber optic and copper cable terminations

With a focus on precision and quality, we deliver cabling solutions that meet industry standards and support high-performance data center environments.

Security Services

Design and Installation of Security Cabling

We provide dedicated cabling solutions for security systems such as surveillance cameras, access control systems, alarms, and intrusion detection systems (IDS). Our solutions ensure that your security infrastructure is connected seamlessly and securely.

Security System Integration

We integrate security cabling with other infrastructure systems like environmental monitoring and backup systems, ensuring that everything operates in sync for better overall management.

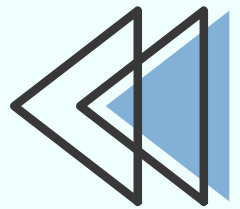

Security Device Physical Installation Services

FYBR DC Solutions provides professional installation of security devices, including surveillance cameras, card readers, and access control systems, ensuring comprehensive protection for your data center.

FYBR DC Solutions Assurance

At FYBR DC Solutions, we are committed to delivering excellence in every service. We focus on understanding each client's unique needs, ensuring our data center solutions align with their business goals. Here's our promise:

- **Quality & Reliability:** We provide high-quality, reliable services that minimize downtime and ensure smooth data center operations.
- **Expertise & Innovation:** With over a decade of experience, our team brings advanced technical expertise and innovative solutions to stay ahead of industry trends.
- **Customer-Centric Approach:** We prioritize customer satisfaction, offering responsive, personalized support that adapts to your business's evolving needs.
- **24/7 Support:** Our Remote Hands Services and security measures are available around the clock, ensuring continuous support whenever needed.

Thank You

Because, we're here to help

Choosing FYBR DC Solutions means you're partnering with a dedicated team that's committed to your success. We offer the technical expertise, security, and scalability that help your start-up thrive, enabling you to focus on what matters most—growing your business.
